Pable

Made to be Made Again

by **PT. Daur Langkah Bersama**

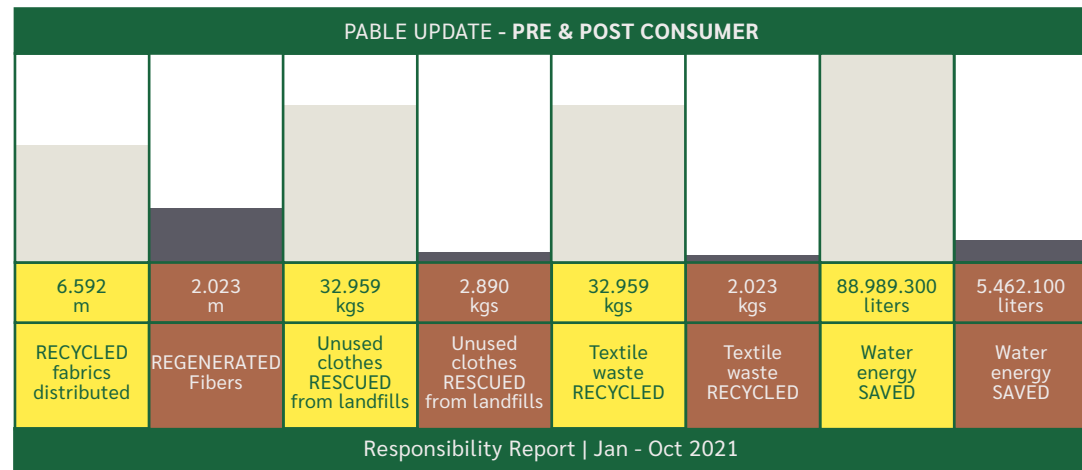

*Can we live in a world
that is **free of waste?***

WE ARE MADE FROM PASSION

Passion is at the heart of everything we do. The reason why we started in the first place. The fuel to discover new things so we can challenge the norms. The energy that drives us to invent products that work as solutions. So, people can perceive life in a different light.

Our passion comes in the form of fabrics and fibers. The two things you can create from scratch for your daily needs. Because changes are meant to be embraced through everyday experience. However, our fabrics and fibers are not ordinary materials. It's a recycled fabric and fibers made from 100% textile and plastic waste. With us, you can befriend the enemy of our planet to become a tool of change.

WE ARE MADE WITH PURPOSE

Passion without purpose is a lost cause. But passion with purpose means solutions with results. In our case, it means Pable isn't just a company that recycles textile waste into recycled fabrics.

We're a company that recycles with a heart to inspire, lead, and create sustainable impacts to create a better world.

WE ARE MADE TO BE MADE AGAIN

Pable Sustainable Fabrics are made from 100% textile and plastic waste recycled yarn that we weave with handwoven technique. The fabric characteristics are mainly based on the traits from the yarn we produce in one recycling process. Meanwhile, the yarn traits are heavily influenced by the quality of textile waste we recycled. It means our fabrics will always differ in each production.

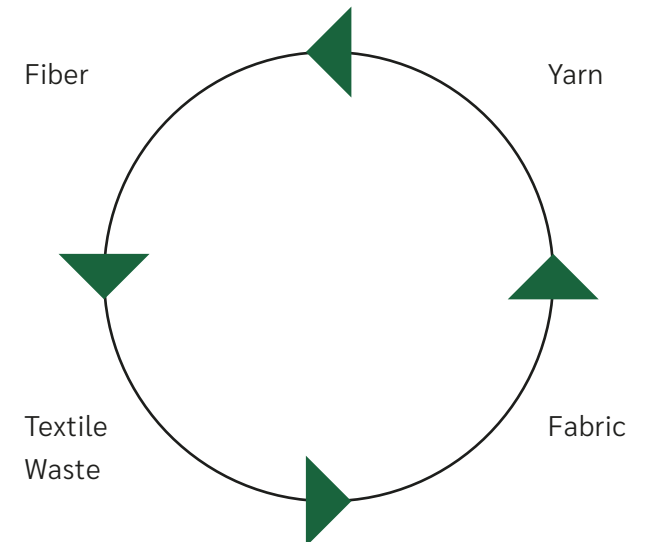

Meanwhile, **Pable Sustainable Fibers are the first form of Pable Sustainable Fabrics that can be used as alternatives for many conventional materials.**

This method of production is known as Closed-Loop System. But, we called it

We Are Circular because everything is connected.

Due to our method of production, our fabrics are sometimes unusual and far from perfect. It's not rare for people to find a thread of red or yellow from our white fabric. However, we take pride in those imperfections.

Because we don't see that as flaws. But unique features that are full of the story behind our progression toward sustainability.

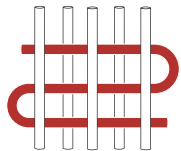

PABLE SUSTAINABLE FABRICS

Sekir & Lungsi

Sekir & Lungsi are sustainable fabrics made from textile and plastic waste. The mix between the two creates 12S yarns that we weaved manually. The colour from each Sekir & Lungsi fabric is heavily determined by its resources. It implies the color from any Sekir, & Lungsi product is inconsistent because it is influenced by the dominant shade from some specific colors. This condition is connected to our commitment to save freshwater by eliminating the dyeing process from our production. Sekir & Lungsi fabrics are lightweight, comfortable, and fit well for daily wear.

Malet

Malet is a sustainable fabrics made from textile and plastic waste. The mix between the two creates 12S yarns that we weaved manually in stripes pattern. The color from each Malet fabric is heavily determined by its resources. It implies the color from any Malet product is inconsistent because it is influenced by the dominant shade from some specific colors.

This condition is connected to our commitment to save freshwater by eliminating the dyeing process from our production. Malet fabrics are lightweight, comfortable, and fit well for daily wear.

Pakan

Pakan is a sustainable fabric that is made 100% from unprocessed cotton that we reprocess again.

Pakan is a heavy-weight fabric with a rustic feeling. It makes Pakan fit well for Home & Living products and outerwear.

PABLE SUSTAINABLE FIBERS

Recycled Fibers

Pable Sustainable Fibers are 100% made from textile and plastic waste. It is also the first form of Pable's recycled fabrics. Great alternatives for many conventional materials, such as dacrons & sponge for household items and soundproof foams for buildings & vehicles.

Terms & Condition

- 1 The minimum purchase for Pable Sustainable Fabrics is 1M and applies multiples.
- 2 The color of the yarn, fabric, and fiber we produced cannot be the same because it depends on the availability of the textile waste color we can process at the moment.
- 3 Each product is woven manually by artisan weavers. It means the fabric's characteristics, motifs, and shapes will always be different in each production.
- 4 The number of fabric and fibers stocks can change at any time.
- 5 The custom motif is possible with MOQ in the amount of 300 m. (T&C applied)
- 6 For further information, you can contact us at info@pableliving.com.

WE ARE MADE
TO COLLABORATE

**We see ourselves as a catalyst
for change.**

A partner who accompanies your sustainable journey. We love to weave meaningful relationships with you as we track our sustainability progress together.

With you, we will arrive at sustainable solutions to drive business & communities forward by amplifying sustainable practices beyond Corporate Social Responsibility.

WE ARE MADE
FOR THE PLANET

We don't have all the answers to stop climate change. But we understand the importance of our role as advocates for a better future. We choose to implement the Circular Economy into Pable because we want to save our only home.

The planet Earth.

However, the journey to protect our Earth is not easy. We need you to walk this journey with us. So, we can live in a mindful state to respect how the world operates so all living beings can live in harmony.

WE ARE MADE
FOR YOU

We exist to give back to the community. The crowd who have limitless passions to change our current living situation. The people who have goals to create a better world. The creator who can make creations that can be made again. The environmentalist who protects our only home. The circular heroes who are willing to walk the sustainable journey with us.

Because we believe we are all connected and where we are today is not where we must be tomorrow.

Yes, we can.
Because we are circular.
